Introduction

The role of the Psychology Board of Australia (the Board) includes:

- registering psychologists and provisional psychologists
- developing standards, codes and guidelines for the psychology profession
- handling notifications, complaints, investigations and disciplinary hearings
- overseeing the assessment of overseas trained psychologists who wish to practise in Australia, and
- approving accreditation standards and accredited courses of study.

The Board's functions are supported by the Australian Health Practitioner Regulation Agency (Ahpra). For information about legislation governing our operations see About Ahpra at www.ahpra.gov.au/About-Ahpra/What-We-Do/Legislation.aspx.

The Board has analysed its registration data and produced a number of statistical breakdowns about registrants to share with the profession and community. The Board shares these breakdowns regularly.

Ahpra and the Board established a short-term pandemic response sub-register for up to 12 months (or less if the pandemic subsides) to help with fast tracking the return to the workforce of experienced and qualified health practitioners. The pandemic response sub-register came into effect on 6 April 2020. Eligible psychologists were added to the pandemic response sub-register on 20 April 2020. These practitioners are included in these statistics. Please see the [COVID-19](#) page on AHPRA's website for more info.

For more information on psychology registration, please see the Board's website www.psychologyboard.gov.au/Registration.aspx

Principal place of practice

Principal Place of Practice (PPP) is the address declared by the psychologist to be the address at which he or she is predominantly practising the profession. If the psychologist is not practising the profession or is not practising predominantly at one address the Principal Place of Practice may be the psychologist's principal place of residence.

The 'No PPP' column in the tables on the following pages represents psychologists who do not have an Australian Principal Place of Practice recorded on the register usually because they are currently residing overseas or who have not provided a valid PPP.

The figures in the table above show the total number of psychology area of practice endorsements recorded on the National Register. Psychologists who hold more than one endorsement are counted for each endorsement they hold. The number of individual psychologists who hold at least one area of practice endorsement after the close of business on 31 December 2020 was 13,662.
